

GVCA committed **\$50,000**
over the next five years toward
Conestoga College's building Fund.

**The College needs
to raise \$28 million**

If we all give just a little,
it will amount to a lot.

**We are asking each GVCA
member to contribute
just 10¢ per day**

**That's only \$36.50
per member per year**

This is a small amount to contribute
considering Conestoga College
benefits everyone. That's less than
your morning coffee for a month!

Or, how about **\$15.00 per graduate
that you employ?** (And no, you can't
take it off their vacation pay!)

Of course, you can contribute a heck of
a lot more and really make an impact
– think of it as a wise investment in
your business's future. Think of it as
the right thing to do for Canada's most
respected and highest rated college.
If the people who actually BUILD the
college do not believe in its Building
Fund, then what kind of message are
we sending out about industry? Let's
show our community that we care.

**Growing
our own
Construction
Talent**

CONESTOGA

Connect Life and Learning

Conestoga College is an important educator in our community. Not only for health care, business and manufacturing processes, but it is a vital pipeline of new talent for the Construction Sector.

Many of the successful contractors in our association are graduates from Conestoga. Many more successful firms benefit by hiring graduates from the multitude of construction and management programs offered by the college.

Conestoga College takes this industry seriously and has addressed the skills training issue. The carpentry school, Masonry Training centre, the Roofing School and the HVAC facility means that apprentices don't have to travel outside of our area for required training. Young people have access to trades training. There is a new awareness of our industry as a first choice career for students, their parents and educators.

Conestoga is expanding – one look at the new facilities on campus, or across the 401 by Doon and you will see massive construction activity. Under the inspiring leadership of Dr. John Tibbets, and the College's vision for growth, the construction

industry will continue to be benefactors by building their facilities that educate and train our workforce – it's an amazing win-win situation for us!

This cycle of growth and buildings will continue for Conestoga, yet they need our financial support. At the November board meeting, in light of Conestoga College's immense value to our industry, **GVCA committed \$50,000 over the next five years toward Conestoga College's building Fund.** (The College needs to raise \$28 million). This is a huge challenge for them, but if we all give just a little, it will amount to a lot.

We are asking each GVCA member to contribute to this fund which the GVCA will turn over to the College.

Whatever the formula, the contribution is appreciated. This is voluntary. If our over 600 members all contribute, we can meet our financial goal earlier than five years.

Attached, please find a commitment form. Please give this careful consideration, and support Conestoga College.

The GVCA Board of Directors

Yes! I want to contribute to Conestoga College's building Fund.

Please accept my donation of \$ _____

I have enclosed a cheque payable to *The Grand Valley Construction Association*
