## Intro to BIM for General and Subcontractors

This course will provide project managers, estimators and senior staff engaged in general contracting and subcontracting the basic tools for visualizing and reporting a sample virtual construction model of a small office building using **NAVISWORKS**. The topics to be covered include:

- describe the main features and functionality of the NAVISWORKS product
- open and append 3D files of different formats and save them in NAVISWORKS format
- create links to external scheduling files and object properties in external databases (4th Dimension)
- perform visual project model reviews using the built-in review and reporting tools
- create construction simulations of a project model to check the validity of construction schedules
- perform interference detection tests between 3D files of different disciplines to check the integrity of the design
