

Orillia Office - Estimator / Bid Closer

Applicants for this position will have at least 3 years of Canadian experience in the estimating of ICI building projects of varying complexity. You have either a C.E.T. or P. Eng. designation or are working towards your Gold Seal Certification in Estimating. Individuals with a university math degree will be considered.

You will estimate and tender complete construction projects. Your experience with the ICI construction market provides you with the ability to analyze and identify both the risk and opportunity that each tender presents. Extensive knowledge of earthwork and concrete take-offs, as well as a good understanding of mechanical and electrical disciplines are also required. Excellent communication and organizational skills; computer skills; attention to details; accuracy; and ability to work under pressure are vital in this role.

Other responsibilities essential to this position include:

- Site investigations
- Interpreting technical specifications
- Detailed quantity take-offs for all divisions
- Invitations to subcontractors
- Preparation of labour and material cost estimates
- Evaluating subcontractor quotations
- Closing bids
- Subcontract negotiation
