

### **Orillia Office - Quantity Estimator – Entry Level**

This is a full time entry level position for a co-op student or recent graduate with a College or University degree in civil engineering (or a related discipline).

Reporting to the Chief Estimator, the successful applicant will perform a variety of estimating support functions. You must have your own transportation. Proven strength in mathematics is an asset.

Other responsibilities essential to this position include:

- Site investigations
- Quantity take-offs
- Product/material research
- Subcontractor invitations
- Tender submissions
- Blueprint reading abilities

This opportunity has potential for advancement and long term career employment.
