

Position : Mechanical Estimator

Location : Brantford, Ontario

Job Type : Full Time

Education : College Degree in Mechanical Engineering Technology

Job Description :

Perras Mechanical Services Limited has an exciting opportunity in **Mechanical Estimating**. Necessary for our growth is the need for a dynamic individual who is passionate about developing, implementing and administering estimating support for a range of projects in various market segments (industrial, commercial, education, public facilities, and healthcare).

Job Requirements :

Successful candidates will be required to provide estimating services in all aspects of the plumbing, piping, sheetmetal and HVAC disciplines. Knowledge and experience providing conceptual and detailed estimates on multiple disciplines (mechanical / HVAC / plumbing) is desired. Familiarity with applicable building codes, construction materials and estimating procedures is required. Good communication, writing and computer skills are essential. A College Degree in Mechanical Engineering Technology with knowledge of **computerized estimating programs** is desired.

Salary : commensurate with experience
(40 hours per week)

About Perras Mechanical

Perras Mechanical Services Limited's progressive growth and quality service over the past 20 years has developed this organization into a respected and recognized mechanical contractor supplying plumbing, piping, sheetmetal, heating, air conditioning and refrigeration capabilities – active in construction and service. As we continue to grow, our focus is to remain the same: meet the needs of our clients for whom we work.
