BIM – MEP Fundamentals

This course will provide subcontractors and mechanical designers engaged in mechanical, electrical and plumbing the basic tools for creating, visualizing and reporting using a sample virtual construction model of a small office using **REVIT MEP**.

The topics to be covered include:

- Introduction to REVIT MEP and BIM
- Views
- Set up, import and link projects using REVIT MEP
- Parametric 3D design tools to design and analyze MEP systems
- Detailing and drafting view creation
- Collaboration and cross referencing with other disciplines
- Annotation and creation of project schedules
- Create construction documents
