Enterprise has systems, tools and techniques developed from their own infrastructure of purchasing, maintaining and selling their own rental, commercial truck, and fleet management vehicles. These will further assist GVCA members in evaluating total cost of ownership as well as optimal holding costs for your vehicles.

Some of the benefits to GVCA members include:

- Developing a personalized plan for your company
- Quarterly consultations with your Fleet Management Team
- Gaining knowledge from Enterprise’s industry-wide best practices

To get set up with a fleet management expert, contact David A. Trott.
