

**Excess Soils Specialist – Environmental Division
Kitchener office**

MTE Consultants Inc. has provided consulting services to communities throughout Ontario since 1985. For over 30 years, we have maintained a commitment to quality and lasting relations. Our strength is in the people we work with and the solutions we design. With 5 different offices across Ontario, our team is comprised of driven professionals at various stages of their careers – and we're all in this together. Every day, we're working together and collaborating on projects that are both challenging and impactful. Join a team that creates connections, drives your career and supports the community in more ways than one.

We are currently seeking an Excess Soils Specialist to work out of our Kitchener office.

Responsibilities

- Work with the environmental site assessment team on infrastructure, land development and environmental due diligence projects, including playing an active role in technical review of project deliverables
- Manage and lead projects related to the assessment and management of environmental contaminants in soil and groundwater, including phased environmental site assessments (ESAs) and the Record of Site Condition (O.Reg 153 RSC) process, excess soils management (O.Reg 406/19) and/or remediation in Ontario
- Act as main point of contact to communicate technical and project management information to client teams
- Respond to Requests for Proposal related to ESA and excess soils work to develop and maintain strong client relationships
- Working with senior staff, participate in the interpretation of data including the presentation of data in tables and figures
- Conduct fieldwork associated with a wide range of investigations including drilling and test pitting
- Compaction testing of soil and asphalt using a nuclear gauge, concrete testing, aggregate sampling and other geotechnical inspections

Qualifications

- Bachelor's Degree in Environmental Engineering, Geoscience (or equivalent)
- 3-5 years of experience in a similar role (work term experience acceptable);
- Pursuing a professional designation (P.Eng. or P.Geo.)
- In depth knowledge of the regulations governing contaminated sites and environmental work in Ontario (e.g O.Reg 153, O. Reg 903, O. Reg 406, R.R., O. Reg 347, etc.
- Experience working around heavy equipment, including drill rigs and excavators
- Attention to detail;
- Strong written and verbal communication skills;
- Strong time management skills;
- Extended time in the field is required year round;
- Must be able to lift equipment between 50 to 60 lbs.;
- Regular travel to project sites is required. Mileage for work related travel will be reimbursed;
- Valid G License.

MTE Consultants Inc. offers a comprehensive benefit package including the following:

- Competitive Wages
- Shared Ownership in Our Employee Owned Company
- Group RRSP Matching program
- Technical Development and Career Opportunities
- Social and Supportive Culture; and much more!

We thank all applicants; however, only those selected for an interview will be contacted. No Agencies, please.

MTE Consultants will accommodate the needs of qualified applicants under AODA legislation in all parts of the hiring process. Should accommodation be required, please notify our Human Resources department.
